DETAILED ACTION

Status of Claims

Claims 1-19 were cancelled in the amendment of June 19, 2002. Claims 21 and 37 were cancelled in the amendment of February 20, 2003. Claims 20, 22-36, 38-48 and 50 were cancelled in the amendment of November 28, 2003. Claims 41-29 and 51-64 are currently pending.

Specification

The specification is objected to for the reasons given in the Paper of 5/23/03. Applicant's intent to amend the specification and correct the misspelled words in the claims upon receipt of a notice of allowability is noted.

Claim Rejections - 35 USC § 112

Claims 41-48 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claims are not complete, since they ultimately depend from cancelled claim 36. Furthermore, in the event that their dependency is amended so that they depend from claim 49, they will be objected as being duplicates of claims 54 and 58-64, respectively. However, for the purpose of advancing prosecution, the claims will be examined as if they depended from claim 49.

In view of the amendment to claim 49, the earlier rejection under 35 USC 112, paragraph one is withdrawn.

Art Unit: 1614

In view of the cancellation of claims 20, 36 and 50 the earlier amendment under 35 USC 112, paragraph two does not apply.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 41-29 and 51-64 are rejected under 35 U.S.C. 103(a) as being unpatentable over 5,635,204 (Gevirtz et al), alone or in view of Veterinary Pharmacology and Therapeutics (Adams).

Gevirtz (abstract, column 1, lines 35047, column 3, lines 13-16) discloses a method of inducing sedation and analgesia using a guanidine derivative, including guanabenz and clonidine. It further discloses a method of reversing the analgesia and sedation using the instant α -adrenergic antagonist. Claim 49 differs over Gevirtz in reciting a method for providing chemical restraint. The claims further differ over Gevirtz in reciting specific routes of administration, subjects and dosages. However, once a method of use is known it is within the scope of the artisan to determine optimum routes of administration, subjects and dosages. Additionally, Adams (page 160, column 2, "Tranquilizer-Sedative" through page 162, column 1, lines 1-2) discloses that sedatives are used in animals to produce "chemical restraint."

Applicant argues that Gevirtz requires a combination of drugs to induce general anesthesia and places an animal in recumbancy. This is not persuasive. The instant "comprising" language does not exclude a combination of drugs or recumbancy.

Applicant's arguments regarding Adams are not persuasive, since Adams is cited to show that sedatives are used in animals to produce "chemical restraint."

Applicant's arguments regarding claims 36 and 38-48 are moot, since claim 36 has been cancelled.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
